Thanks to our members, J.D. Power has ranked us "Highest Member Satisfaction among Commercial Health Plans in the South Atlantic Region."¹

Your health partner.

Kaiser Permanente is not just a health plan. We are also a team of health care providers—including doctors, nurses, pharmacists, and specialists—all working together in state-of-the-art facilities to provide the right care for you and your family.

With 30 Kaiser Permanente offices throughout metro Atlanta and Athens, we're in your neighborhood. And in most cases, your doctors, labs, X-ray facilities, and pharmacy are all under one roof.

For even more convenience, you'll have online and mobile access to your doctor's office so you can easily schedule appointments, refill prescriptions, view test results, and email or call your doctor.

Our members really like us!

J.D. Power & Associates has recognized us five years in a row as having the **"Highest Member Satisfaction among Commercial Health Plans in the South Atlantic Region."**¹

Our non-profit status works for Georgia.

As Georgia's largest non-profit health plan, Kaiser Permanente strives to build a healthier community for all Georgians. In fact, part of our mission is to improve the health of the communities we serve.

We continually invest through our Community Benefit programs. From helping reduce health disparities in underserved communities to supporting safety net clinics, to supporting local initiatives that support healthy eating and active living, Kaiser Permanente is helping to make a difference.

The child is also smiling and high-fiving a doctor whose arm and hand in a white coat with a purple cuff are visible on the left. They are in a bright, modern setting with large windows in the background.

When you compare us to other health plans, you'll see how the advantages of Kaiser Permanente quickly add up.

| | With other health plans... | With Kaiser Permanente...* |
|--|--|--|
|  <p>Doctor choices</p> | The insurance company simply contracts with doctors who accept their insurance. You often pick from only a list of names. | <input checked="" type="checkbox"/> We carefully screen and hire our own doctors (over 450 of them), many from top schools like Emory and Harvard. You review credentials on kp.org, choose your own doctor, and can switch at any time, for any reason. |
|  <p>Getting care</p> | You drive all around town to see doctors, take lab tests, get X-rays, or fill prescriptions. | <input checked="" type="checkbox"/> You can see your doctor or specialist, plus get lab tests, X-rays, and prescriptions all in the same building at most of our 30 locations. See a doctor in another office whenever it's more convenient. |
|  <p>Coordinating care</p> | You're on your own to work with unconnected doctors, specialists, pharmacies, hospitals and other providers. You could repeat the same tests, answer the same questions, and just hope to avoid drug interactions. | <input checked="" type="checkbox"/> Your personal doctor is your advocate and coordinates all your care. All of your providers—across all locations—see your electronic medical record, so you can quickly get the care that's right for you. |
|  <p>Getting approval</p> | Your doctor asks the insurance company to approve a test or procedure, which means you may wait days for an answer. | <input checked="" type="checkbox"/> If your doctor thinks you need something, he/she simply orders it on the spot. And no referrals are needed to see any Kaiser Permanente specialist.* |
|  <p>Out-of-pocket cost</p> | You're often surprised by the things your insurance doesn't cover. Doctors are unconnected and paid for each service they provide, so you could pay for duplicate tests, X-rays, or other services you don't need. | <input checked="" type="checkbox"/> You'll have coverage that's designed to minimize surprise out-of-pocket costs. And because our providers are all connected, you pay for just the care you need to keep you healthy or get you better. |
|  <p>In between visits</p> | It's up to you to remember instructions, wait days or weeks for test results, and play phone tag with your doctor to get questions answered. | <input checked="" type="checkbox"/> Details of your visits and lab results are at your fingertips online or through our mobile app. Refill prescriptions, make appointments, and even email your doctor with questions. |

What you need, when you need it: Quality care and specialties.

Specialty Care

You can feel confident your family has access to expert care. You can schedule an appointment without a referral for any specialist at a Kaiser Permanente medical facility. (Some specialists may require a clinical evaluation or additional information before they see you.) In certain cases, you might be referred to an affiliated specialist.

24/7 Nurse Advice

If you have an illness or injury and you're not sure what kind of care you need, call our registered nurses 24/7 at **404-365-0966**. They'll have access to your electronic health record and can help you handle the problem at home or direct you to the appropriate location for care.

Inpatient Hospital Care

You'll have access to inpatient care at several of Atlanta's most well-respected hospitals, such as Northside, Piedmont, and Children's Healthcare of Atlanta. At many of these locations, you'll get care from a Kaiser Permanente doctor who has access to your medical record.

Urgent and Emergency Care

Our Urgent Care Centers are open on evenings and weekends and offer an alternative to the emergency room when your injury or illness needs immediate medical attention but is not a medical emergency. At our Advanced Care Centers, we offer care for urgent medical needs 24 hours a day, 7 days a week, staffed by our own physicians. For medical emergencies, you have access to any hospital emergency room, even if it's not affiliated with Kaiser Permanente.²

Care When You Travel

You can get visiting member benefits when you're temporarily visiting another Kaiser Permanente region, and you're covered for emergency care wherever you go.
